SICK LEAVE CERTIFICATE

(From 27/11/2025 TO 12/02/2026)

It is certified that Mr. Arif Mehmood S/o Yaqoob Khan with (MR#25-05-735) is a 54-year-old gentleman having Emirates ID No. 784-1971-0831942-3. He previously visited on 19-05-2025 as a case of severe right leg pain due to right leg multiple fracture and open reduction internal fixation in Dubai on 20-03-2025. He presented with severe right leg pain. His examination showed reduced usual acuity on the right leg, so he was under my treatment and discharged from hospital on 20-05-2025. He was advised medical rest/sick leave for 02 months (with effect from 20 May, 2025 to 21 July, 2025).

The patient has now undergone a second surgery (Re-operation) from 17 July 2025 to 19 July 2025, due to non-union in the right femur with a diagnosis of Rt Femur Non-Union, and surgical procedure Plate Removal + ILN + BG.

Upon assessment after reoperation and review on 21-07-2025, the patient is still not fully recovered. Therefore, he is under my observation and continuing treatment. He was advised complete bed rest for 2.5 months (with effect from 21 July 2025 to 30 September 2025) for proper recovery.

Following the latest clinical evaluation, the patient continues to experience significant pain in the right hip and right thigh, along with ongoing recovery from a subsequent encounter for fracture healing. As the patient is still under treatment and recovery remains incomplete, sick leave is hereby extended as follows from: 27/11/2025 to 12/02/2026.

The patient is advised to maintain strict complete bed rest during this extended period for proper healing and recovery.
